

What's different about Viva?

100% Organic
Whole Food Supplements

We believe in using real foods to nourish the body, not synthetic vitamins. Our Complete recipes are balanced using whole foods and organic ingredients for optimum nutrition.

No Hormones & Antibiotics Ever,
Humanely Raised & Handled

We hold our farmers to high standards. Raising livestock without these chemicals means that our farmers are taking extra care to provide a clean living space, quality feed, and a stress-free environment.

Human Grade Ingredients,
USDA Manufacturing

There's nothing in our food that we wouldn't put on our own tables. On top of that, our food is produced in a USDA inspected facility with strict sanitation procedures. We make our recipes right alongside food going to groceries and restaurants nationwide.

Chunked to Chew

We're the first & only company to produce a chunked recipe! Why? We want pet parents to be confident knowing exactly what's in their pet's bowls — you won't find any MSM here! Not to mention, our chunks are great for enrichment and expressing natural chewing behavior!

Our Recipes

Pricing provided is per lb and shipping is free for all orders > \$250. Otherwise, there's a flat-fee shipping fee of \$10-20 based on zone! On average, if feeding a variety of recipes, it will cost ~\$7 / day to feed a 30lb dog and \$2.50 / day to feed a 10lb cat.
